Vince: My experience has been that we don't have much of an exchange or dialog at this point---it's a done deal. If you know something very explicit that you have heard---I would like to know.....

BTW-do we know if/when he is going to the Hill with a report out?

Thanks-
Lynn

Hi Kacee -- I won't add to your list, because my preference would be for NCEA only, especially since Jon Samet will be there. We should maximize our opportunity for scientific exchange on NCEA's document, and this concerns us more than any other office or agency. And if there's a need for frank discussion, it will be best for us to engage in that discussion ourselves and not invite others to join in and reduce our time for dialogue -- Vince

Subject: formaldehyde and NAS

Several of us have talked about inviting a few individuals from the programs to the NAS briefing on their formaldehyde review report. I suggest we invite the following:

OAR: Steve Page (OAQPS), Margo Oge (OTAQ) and Lydia Wegman (OAQPS)
OCSPP: Wendy-Cleland-Hamnett (OPPT) and Tala Henry (OPPT)
OSWER: Jim Woolford (OSRTI) and Betsy Southerland (OSRTI)
OW: Cynthia Dougherty (OGWDW), Ephraim King (OST)
OCHP: Peter Grevatt
NCEE: Al McGartland
ORD: Bob Fegley (OSP) and Mary Ross (OSP)

I've targeted the Office Directors with this list, with the assumption they may delegate this to someone else in their organization. I've also included a few Division Directors who I think will be especially interested. All four program offices will have an interest in formaldehyde for some regulatory or decision-making purpose.

Are these the right people? Have I missed anyone who needs to be included? I did not include senior scientists in the programs (Ed O'Hanian, Carl Mazza, etc.), though we could add them to the list.
